

Swing door fitting

- converts the SOMMER synoris to a swing door opener

Allows the installer to modify the Sommer synoris garage door opener to use on a swing door application by providing a fast and simple installation. The fitting fits easily onto the existing motor and allows swing doors to open up to a nine foot door opening.

Included are the swing arms and all fittings for the installation. The openers safety photo eyes will properly work to ensure the right direction for the swing door operation.

Swing door fitting (item no.1501V000)

- ▶ Economical option for swing doors
- ▶ Converts the SOMMER synoris to a swing door opener
- ▶ Photo eyes work in proper direction for swing doors
- ▶ For doors up to 9 ft. opening
